The Death of the Ad Manager

How to replace your ad manager, SDR, and assistant with one AI employee that works 24/7.

PART 1 — THE PROBLEM

You're paying for 3 separate roles and still dropping leads.

The $12K/month trap

Ad Manager / Agency	$3,000 – $5,000/mo
SDR / Lead Follow-Up	$4,000 – $5,000/mo
Virtual Assistant	$1,000 – $2,000/mo
Total	**$8,000 – $12,000/mo**

And they still miss leads, take weekends off, and need managing.

78%

of deals go to whoever responds first.

Your team responds in hours. Or never.

The agency model is broken

- You're paying $3-5K/mo for someone to check your ads twice a week
- They send you a PDF and call it "reporting"
- They don't follow up with your leads
- They don't book calls
- They don't work nights, weekends, or holidays
- When they churn, you start over

PART 2 — THE NEW MODEL

What if one AI did all three jobs?

Not a chatbot. Not a tool. An actual employee that does the work.

The AI Employee system

Cynthia — Your AI Employee

↓

Ad Manager
Launches, optimizes, scales your campaigns

SDR
Responds in <60s, qualifies, books calls

Assistant
Reports, CRM, calendar, reminders

One system. Fully connected. Always on.

Why now?

- AI just crossed the threshold where it can reliably do this work
- 6 months ago this wasn't possible. 6 months from now, your competitors will have it.
- Early adopters get the biggest advantage
- The businesses that move first win the leads

PART 3 — LIVE DEMO

LIVE DEMO

Let me show you what this actually looks like.

No slides. No mockups. Real AI doing real work in real time.

DEMO 1

Launch a campaign via text

- Text Cynthia: "Launch a lead gen campaign for [your business]"
- She asks targeting questions, writes the copy, sets the budget
- Campaign goes live in Facebook Ads Manager
- You never opened a single dashboard

→ Switch to live demo

DEMO 2

60-second lead follow-up

- A lead fills out your form
- Cynthia responds in under 60 seconds
- Personalized message — not a template
- Qualifies the lead, answers questions, books the call
- You didn't touch anything

→ Switch to live demo

DEMO 3

Weekly report + auto-optimization

- Cynthia sends you a weekly performance report via text
- She flags underperforming ads and pauses them
- She scales the winners automatically
- "I haven't opened Ads Manager in 3 months"

→ Switch to live demo

PART 4 — THE MATH

The numbers don't lie.

The Old Way

- Ad agency: $5K/mo
- SDR: $5K/mo
- VA: $2K/mo
- Response time: hours
- Coverage: 40hrs/week
- Still drops leads

VS

Cynthia

- All 3 roles: fraction of cost
- Response time: <60 seconds
- Coverage: 24/7/365
- Never misses a lead
- No training, no management
- Gets better over time

Who is this for?

- ✓ Service businesses running paid ads (or wanting to start)
- ✓ Businesses losing leads because nobody follows up fast enough
- ✓ Owners tired of managing agencies that underdeliver
- ✓ Anyone paying $5K+ for ad management and lead follow-up
- ✓ Businesses that want to scale without hiring more people

NEXT STEPS

Want us to set this up for your business?

Book a free strategy call

We'll look at your current ad spend, your follow-up process, and show you exactly what Cynthia would do differently for your business.

- ✓ 15-minute call — no pitch, just strategy
- ✓ We'll map Cynthia to your specific business
- ✓ See your projected ROI before you commit
- ✓ Walk away with a plan either way
